## About Myself

---

I am Kaushik Kumar Mitra, a software developer with four years of professional experience at Innoraft, a company that provides web and mobile solutions.

My main expertise lies in developing backend applications using Drupal, a popular content management system. I also have some basic skills in frontend development, such as HTML, CSS and JavaScript, React.

I hold a Bachelor of Technology degree from Budge Budge Institute of Technologies, an engineering college affiliated to Maulana Abul Kalam Azad University of Technology.

## Skills

---

- Sound knowledge in Drupal 8, 9, 10 and PHP as a programming language.
- Used GIT as a version control system and Github for code hosting.
- Developed software following the architecture of MVC and Object oriented programming.
- Used Drupal as a headless CMS, where we have exposed Content added in Drupal with various REST APIs and on the Front end React was being used for showing the data.
- Also have knowledge on User authentication with OAuth.
- Followed coding standards when writing code, and used tools such as `phpcs` & `phpcbf` for maintaining coding standards.
- Used docker/lando and local development for drupal websites.
- Knowledge of Javascript for drupal frontend.

## Experience

---

### Innoraft Solutions Pvt. Ltd.

Jan, 2020 - March, 2024

LTTTS Tech Tadka

**Technogy Used: Drupal 8, React**

Overview

Have used Drupal as a headless CMS on the backend for LTTTS Tech Tadka. Created various REST API routes with Drupal controller. Used Microsoft OAUTH to log people in.

### Technologies Used

- Drupal
- PHP
- React
- Javascript
- SCSS, CSS
- HTML
- MySQL
- Git

## Roles & Responsibilities

- Drupal was used the backend, and ReactJs was used on the frontend. Created various REST API Endpoints for the client ReactJS to handle.
- Used Postman for documenting the API Endpoints.
- Used OAUTH for user authentication, used Microsoft OAUTH authentication to log users from Microsoft accounts.

## Javelin

### **Technogy Used: Migration project from Drupal 7 to Drupal 9**

#### Overview

Javelin Strategy & Research, part of the Escalent family, helps its clients make informed decisions in a digital financial world.

#### Roles & Responsibilities

- Worked on the migration of the site from drupal 7 to drupal 9. Used csv for data migration.
- Worked on the architecture for admin dashboard on drupal 9 site.

## Cummins

### **Technogy Used: Drupal 8**

#### Overview

Worked on the drupal multisite with Cummins SSA. Communicated with clients for giving several demos and getting proper requirements.

#### Roles & Responsibilities

- I was the sole developer in this project, and handled architecting solutions for all of the requirements.
- The project was deployed on Acquia, so I have used Acquia for handling deployment.

## HCLTech

### **Technogy Used: Drupal 10**

#### Overview

HCLTech, part of HCL enterprise, the global technology company. I have worked here solely on drupal BE with other developers.

#### Roles & Responsibilities

- Have worked on and architected solutions for various dashboards for the admin to extract webform submission results.
- Worked on the webforms, and updated drupal CMS fields for making better UI for the content team.
- Worked on solutions architecting components for content editors to add site content with ease and without any knowledge of HTML.

# Education
